#### Cambodia earns \$209 million from milled rice export in first 4 months

Cambodia exported 282,315 tonnes of milled rice between January and April 2025, generating \$209 million in revenue, according to the Cambodia Rice Federation. The exports, conducted by 48 companies, reached 59 countries, with China remaining a key market. Fragrant rice made up the majority (77.94%) of exports, followed by white rice, parboiled, organic, and other types. The Ministry of Commerce attributed this success to trade agreements like the Regional Comprehensive Economic Partnership (RCEP) and the Cambodia-China Free Trade Agreement (CCFTA), which offer tariff concessions and have boosted exports of various high-quality agricultural products to China and other member countries. #### NBC to conduct 12th Macroeconomic Conference on SMEs

The National Bank of Cambodia (NBC) will host the 12th Annual Macroeconomic Conference in December 2025, centered on promoting small and medium enterprises (SMEs) as drivers of Cambodia's economic development. SMEs, which contribute around 58% of the country's GDP, are key to job creation, income generation, and rural development but face challenges like limited financing, weak governance, and restricted market access. To address these issues, the government has implemented support measures including simplified registration, training centers, low-interest loans, and tax incentives. NBC's conference aims to foster dialogue and research on SME growth, focusing on formalization, global supply chain integration, access to venture capital, and ESG principles.
